City of Urbana  
 400 South Vine Street  
 Urbana, Illinois 61801

Attention: Director of Public Works (*A.R. Trantoway*)

Gentlemen:

This letter is being written in regard to the quarterly ground- and surface-water monitoring programs established in the above-referenced permits under Rule 317 of the Illinois Solid Waste Rules and Regulations. To lessen confusion, it is suggested that you begin submitting monitoring data required under each permit at the same time. To summarize the Agency's requirements in this regard, the following may be helpful:

Monitor Point	Required Parameters	Required by Permit
Saline Ditch (A)	Fe, Cl, TDS, NH <sub>3</sub>	75-12-OP
Saline Ditch (B)	Fe, Cl, TDS, NH <sub>3</sub>	75-12-OP
Saline Ditch (C)	Fe, Cl, TDS, NH <sub>3</sub>	75-12-OP
Well E-1	Fe, B, TDS, NH <sub>3</sub> , COD	76-30-OP
Well E-2	Fe, Cl, TDS	75-12-OP
Well E-3	Fe, B, TDS, NH <sub>3</sub> , COD	76-30-OP

We remind you that those results are due in this office quarterly (January, April, July and October) and that your monitoring obligations extend for a period of three years following closure of the entire area covered by both permits. Should you have questions regarding the monitoring program, do not hesitate to contact this office or our Springfield Regional Office.

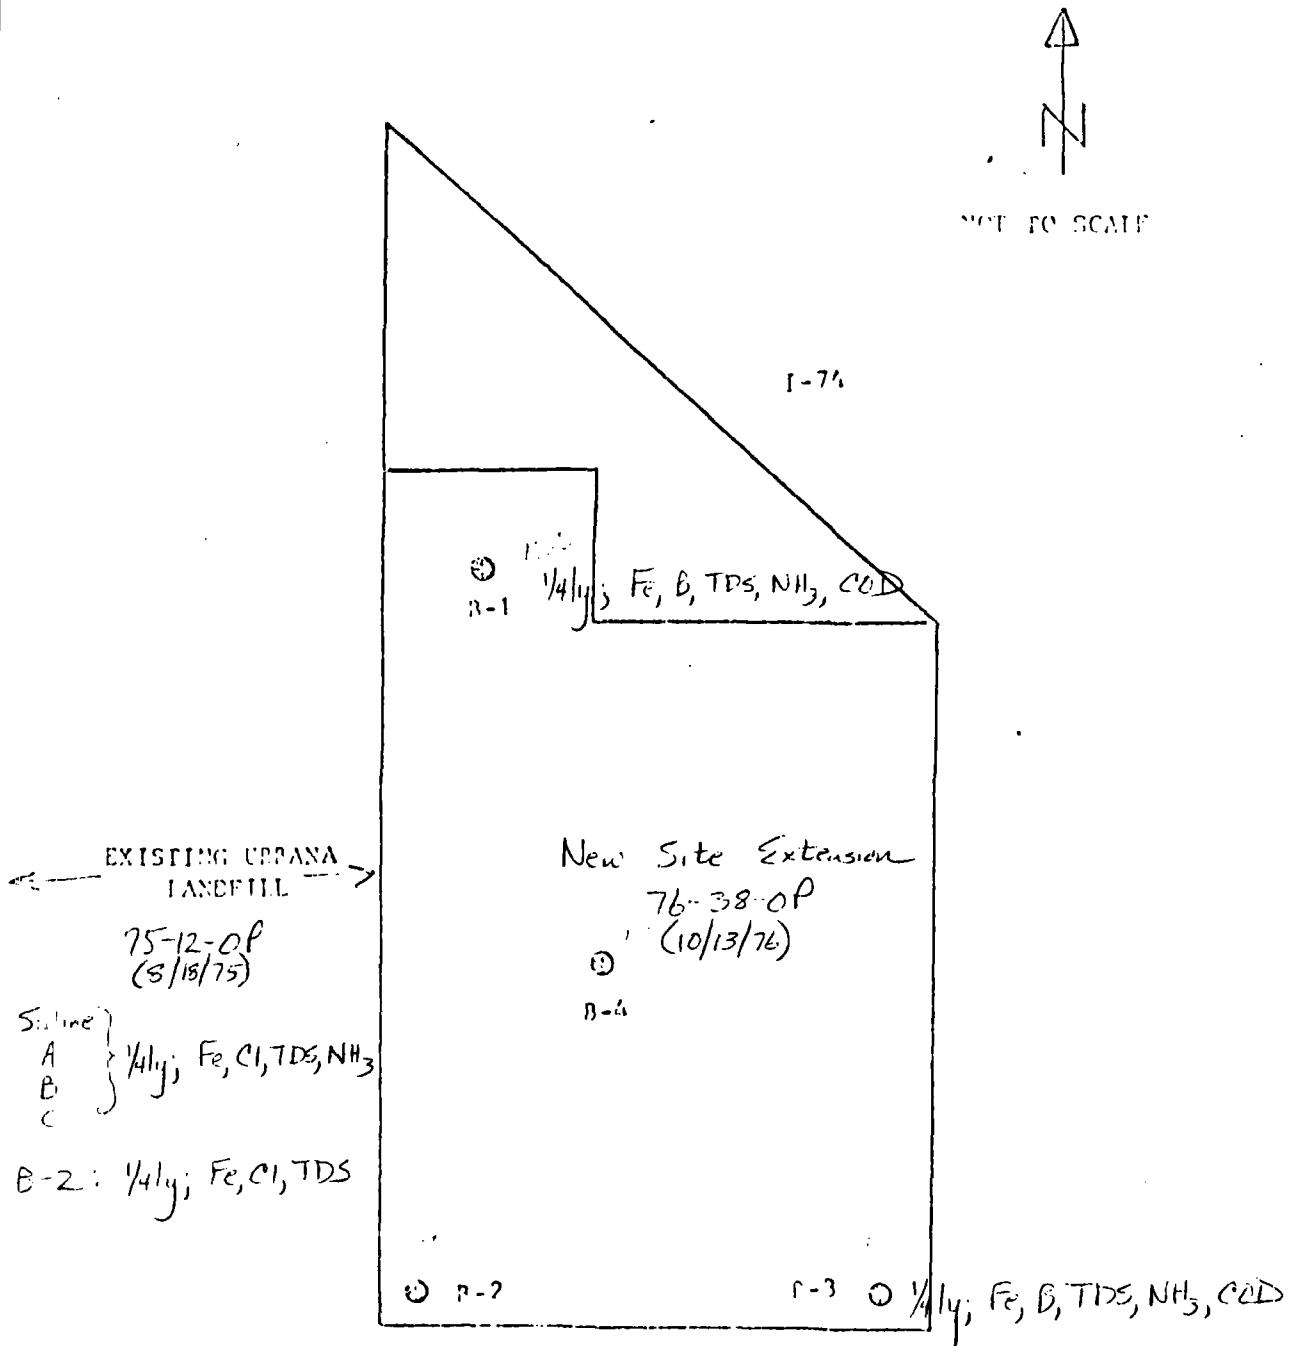

Very truly yours,

Thomas P. Clark  
 Hydrogeologist
